

## **PERSONALITY TRANSPORT® PROFESSIONAL VERSION 4.0**

### **New in Version 4.0**

- Ability to migrate multiple users on a PC simultaneously
- Password protection on computer personalities
- Ability to turn off personality file compression to increase performance
- Support for Windows folder options settings
- Support for Visio 2002 settings
- Support for Adobe Acrobat 6.0 settings

### **Also Recently Added to PT Pro**

- Optional policy to allow redirection of data to a network drive on injection
- Support for network home drives in PT Pro file rules
- Support for Norton AntiVirus Corporate Edition versions 7.61 and 8.
- Improved performance when injecting over a network
- Support for migrating a user who is not currently logged in. With local administrator rights, you can migrate any user on the computer.
- On injection, if the specified user account does not already exist, PT Pro will create it.
- A new policy in Preferences to specify if a created account will have local administrator rights.
- File Rules can now be exported as text files and properly constructed text files can now be imported as file rules.
